THIS STOPS HAIR FROM FALLING OUT

Ever try to count the dead hairs in your comb and brush? They are nature's warning of future baldness and proof that the dangerous little dandruff germ is busy on your scalp.

Dr. Sangerbund, the famous Paris specialist, first discovered that dandruff and falling hair are caused by a microbe. Then came the discovery of the value of the real Parislan Sage (liquid form) in destroying the dandruff germ and promptly preventing the further loss of hair. The effect of only three days' use of Parislan Sage is simply marvelous, and the American people have now awakened to the fact that dandruff is just as unnecessary as it is unhealthy, and that they can be quickly rid of it and save their hair by using a few ounces of Parislan Sage.
